6. How does BEAMA 2050 Connected help businesses meet their sustainability goals?
7. What types of resources and insights can subscribers expect?
8. Steps to join BEAMA 2050 Connected.

1. What is BEAMA 2050 Connected?

Introduction to BEAMA 2050 Connected

BEAMA 2050 Connected is a not-for-profit subscription service designed to unite the energy and built environment supply chains and markets in aligning efforts towards Net Zero and circularity.

At its core, this subscription focuses on collaboration - driving consistency, comparability and alignment across industries. It also provides trusted resources and regular market and policy insights, keeping businesses informed and ahead in today's rapidly evolving sustainability landscape.

Why We Launched This Subscription

BEAMA 2050 Connected is built on one of BEAMA's core missions: supporting manufacturers and the energy and built environment sectors in achieving their decarbonisation goals.

Originally developed for BEAMA members, the demand for broader industry access led to its expansion. By opening it up to more organisations, we aim to maximize its impact across the supply chain.

What You Get as a Subscriber

- ❖ **Access to Tailored Resources and Expertise** - Simplified guidance on business decarbonisation and circularity.
- ❖ **Industry Collaboration Opportunities** - Work with stakeholders across the supply chain and connect with Government.
- ❖ **Trusted Insights & Market Updates** - Stay informed on sustainability challenges, policies and best practices.

2. What are the key benefits of subscribing to BEAMA 2050 Connected?

❖ Drive Industry-Wide Change

Real change happens when businesses collaborate. BEAMA 2050 Connected brings stakeholders together to develop best practices, share insights and implement tangible sustainability solutions. By working collectively, companies can accelerate their Net Zero and circularity goals while shaping the industry's future.

❖ Strength in Numbers

By accessing shared resources and aligning best practices across the supply chain, companies can achieve greater consistency and comparability in sustainability efforts. Through collaboration, businesses tackle shared challenges and create industry-wide solutions.

❖ Expand Your Influence

Subscribers to BEAMA 2050 Connected gain a collective voice in policy and market discussions, ensuring their perspectives are considered in regulatory and market developments. This service amplifies business influence on Net Zero policies, circular economy frameworks and industry standards and practices.

❖ Strengthen Your Supply Chain

A decarbonised supply chain is a key enabler of a circular economy and the achievement of each company's Net Zero goals. BEAMA 2050 Connected supports standardisation, resilience and transparency within supply chains, ensuring businesses can adapt effectively to evolving sustainability demands.

❖ Trusted Guidance & Expert Insights

Subscribers gain access to focused insights, industry reports and practical guides that make sustainability strategies easier to implement. BEAMA 2050 Connected simplifies complex regulatory landscapes, making it easier for businesses to align with Net Zero and circularity goals.

“The journey to Net Zero requires collaboration. **BEAMA 2050 Connected** brings businesses together to turn ambition in action.”

Yselkla Farmer, BEAMA CEO

3. How does BEAMA 2050 Connected facilitate collaboration?

A Platform for Industry-Wide Engagement

- ❖ **Experience Sharing** - Companies exchange insights on sustainability strategies, helping the industry move forward together.
- ❖ **Exclusive Networking & Events** - Engage with professionals at webinars, roundtables and industry-wide conferences.
- ❖ **Joint Problem-Solving** - Collaborate on initiatives to create best practices for decarbonisation and circularity.
- ❖ **Cross-Industry Perspective** - Work with stakeholders across the supply chain for holistic solutions.

4. What's included in the BEAMA 2050 Connected Subscription?

Collaborative Working Groups

Subscribers participate in dedicated groups tackling key sustainability challenges, such as:

- ❖ Developing Embodied Carbon Measurement Standards.
- ❖ Aligning Data & Reporting Requirements.
- ❖ Exploring Circular Economy Opportunities.

Community & Events

- ❖ **Webinars & Expert Talks** - Regular sessions featuring government officials and industry leaders.
- ❖ **Networking Opportunities** - Connect with professionals to share best practices and challenges.
- ❖ **Annual Net Zero Conference** - A flagship event gathering experts to drive sustainability conversations.

BEAMA 2050 Connected Hub

- ❖ **Policy & Market Insights** - Stay ahead with regulatory updates and sustainability trends.
- ❖ **Practical Guides & Tools** - Easy-to-digest resources tailored for your business needs.
- ❖ **Case Studies & Reports** - Learn from real-world examples of businesses implementing Net Zero and circularity strategies.
- ❖ **On-Demand Content** - Access recorded webinars, podcasts and FAQs anytime.

5. Who can subscribe to BEAMA 2050 Connected?

A Wider Scope

BEAMA 2050 Connected is specifically structured to serve a broad range of industries beyond traditional BEAMA membership. This inclusive approach ensures that more companies - regardless of size or sector - can participate in shaping a sustainable future. The subscription is ideal for:

- ❖ Companies within the energy and built environment supply chain.
- ❖ Manufacturers striving to decarbonise and enhance circularity.
- ❖ Trade associations and industry groups looking for stronger alignment and collective influence.

Companies in Scope

1. Energy & Built Environment Sectors

BEAMA 2050 Connected is designed to support companies involved in every stage of the supply chain, including:

- ❖ Manufacturers, distributors and suppliers of energy-related solutions.
- ❖ Engineering and design firms developing sustainable infrastructure.
- ❖ Construction companies and energy suppliers.

By providing structured collaboration, BEAMA 2050 Connected helps businesses align their sustainability strategies, ensuring consistency in tackling Net Zero and circularity challenges.

2. Manufacturers Across Sectors

Manufacturers outside the energy and built environment sectors are also well-positioned to benefit from BEAMA 2050 Connected. Companies focusing on:

- ❖ Decarbonisation of production processes.
- ❖ Circular economy initiatives (e.g., resource efficiency and recycling).
- ❖ Sustainable supply chain innovation.

These companies will find valuable resources, expert guidance and networking opportunities that accelerate their sustainability goals.

3. Trade Associations & Industry Groups

BEAMA 2050 Connected has seen strong adoption among trade associations that recognize the value of collective influence and shared sustainability goals. Trade associations subscribing to the service gain access to:

- ❖ Tailored insights for their members.
- ❖ Increased collaboration across industry sectors.
- ❖ A platform to drive consistent best practices and regulatory alignment.

By leveraging BEAMA 2050 Connected, these groups can provide their members with enhanced resources, advocacy opportunities and a shared commitment to sustainability.

Key Benefits of BEAMA 2050 Connected

Subscribers gain access to a unique suite of resources designed to drive sustainability in manufacturing, energy and the built environment. Core benefits include:

- ❖ **The BEAMA Hub:** A central platform for knowledge sharing, best practices and collaboration.
- ❖ **Expert-Led Guidance:** Access to industry leaders and tailored sustainability strategies.
- ❖ **A Year-Round Work Plan:** A structured program supporting Net Zero and circular economy initiatives.
- ❖ **Cross-Sector Collaboration:** Opportunities to engage with peers, trade groups and regulators to drive industry-wide alignment.

"We have the destination
but we do not have the
map to get there. We will
all need to work together
to reach that goal."

Martin Fahey, Head of Sustainability
Mitsubishi Electric

6. How does BEAMA 2050 Connected help businesses meet their sustainability goals?

Overcoming Sustainability Challenges

BEAMA 2050 Connected helps businesses navigate complex regulations, meet decarbonisation targets and integrate circularity into their operations. By providing reliable guidance, networking opportunities and industry-wide collaboration, it makes sustainability transformation achievable.

How It Helps

- ❖ **Access to Reliable Guidance** – The BEAMA 2050 Connected Hub provides evolving resources tailored to the energy and built environment sectors, including regulatory updates and actionable insights.
- ❖ **Shared Learning & Networking** – Events, committees and forums allow businesses to share knowledge, learn from others and form partnerships.
- ❖ **Industry Alignment & Best Practices** – Subscribers contribute to shaping and adopting best practices for consistency and comparability across the supply chain.

7. What types of resources and insights can subscribers expect?

Learn

BEAMA 2050 Connected provides a growing collection of educational materials, including webinar replays, blogs and podcasts, covering a variety of topics in decarbonisation and circularity.

Additionally, corporate toolkits focused on key areas like decarbonisation pathways offer guidance on how to apply sustainability strategies within your business.

All resources are designed with a business focus, offering actionable insights—from in-depth eBooks and PDFs to quick blog posts, ensuring accessibility across different business functions.

Engage

- ❖ Stay informed on decarbonisation policies and government initiatives.
- ❖ Explore case studies showcasing how businesses are tackling sustainability challenges.
- ❖ Participate in networking events and forums to connect with professionals and share best practices.
- ❖ Receive regular updates on new resources, events and policy changes.

Take Action

- ❖ Join committees and Task & Finish Groups focused on identifying challenges and opportunities in decarbonisation.
- ❖ Implement best practices through shared learning and collaboration.
- ❖ Access industry reports and insights to stay ahead of emerging sustainability trends.

8. Steps to join BEAMA 2050 Connected

Individual Subscription

- ❖ Visit the BEAMA 2050 Connected website to explore subscription options.
- ❖ Complete the online registration form.
- ❖ A BEAMA representative will contact you to finalise your subscription.
- ❖ Once payment is processed, your company gains instant access to the Hub, events and working groups.

Subscription via Trade Association

- ❖ Check if your trade association has a partnership with BEAMA.
- ❖ If yes, subscribe through your association's membership process.
- ❖ If not, encourage your trade association to partner with BEAMA for collective benefits.
