# BEAMA 2050 Connected: United for Net Zero and Circularity

The transition to Net Zero and a circular economy is one of the most pressing challenges of our time. As industries across the energy and built environment sectors strive to decarbonise, consistency and collaboration are critical. **BEAMA 2050 Connected** is a new not-for-profit subscription service designed to bring the supply chain together, ensuring a unified approach to sustainability, circularity and regulatory alignment.

**BEAMA 2050 Connected** serves as the first port of call for those seeking to understand the journey to Net Zero and a circular economy. It fosters engagement among members, attracts potential subscribers and strengthens industry-wide cooperation.

## Why BEAMA 2050 Connected?

The path to Net Zero requires a collective effort. BEAMA 2050 Connected unites businesses to standardise best practices, enhance communication, and drive change. By working together, we create a more consistent and comparable approach across the supply chain, ensuring that sustainability efforts are both practical and impactful.

“The journey to Net Zero requires collaboration. **BEAMA 2050 Connected** brings businesses together to turn ambition in action.”

Yselkla Farmer, BEAMA CEO

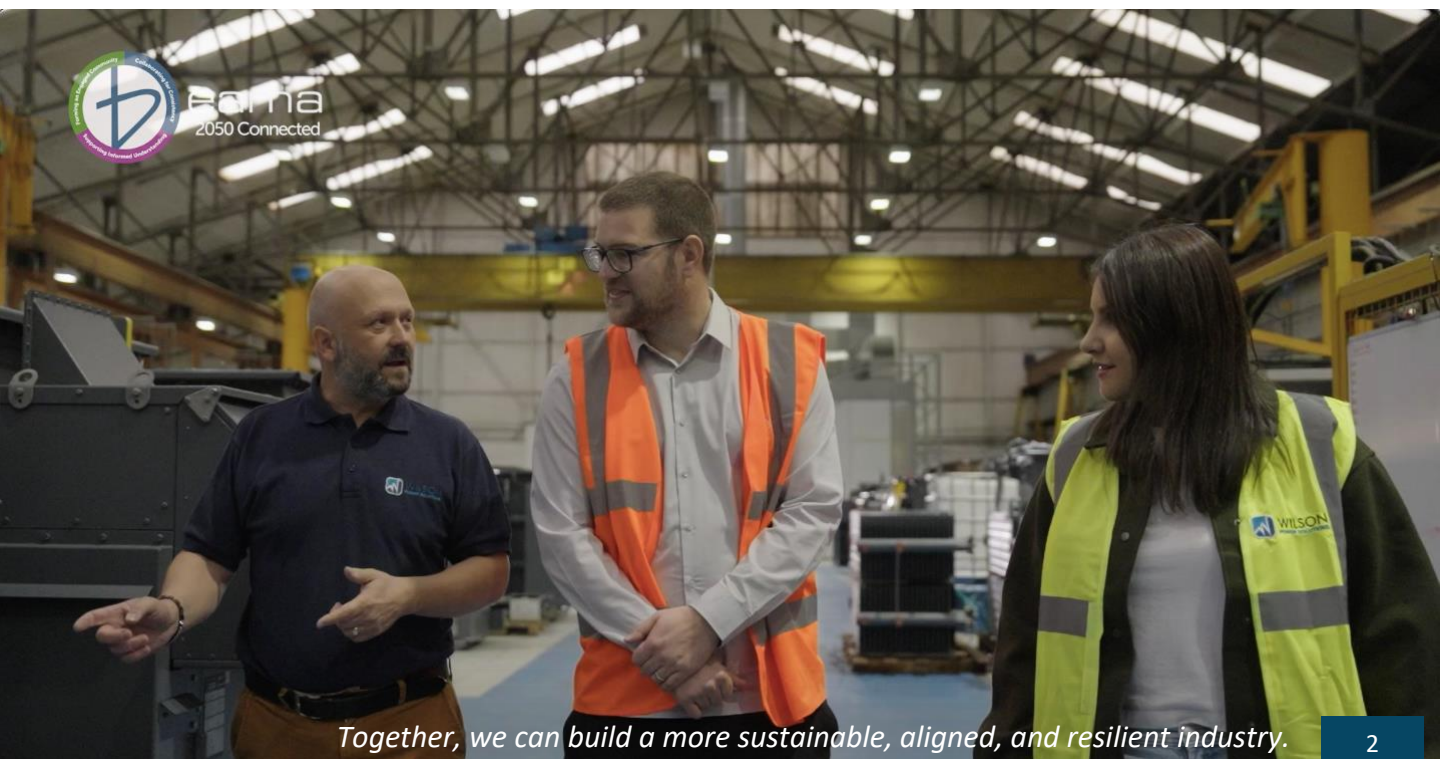

*Together, we can build a more sustainable, aligned, and resilient industry.*

## Key Benefits of Joining BEAMA 2050 Connected

- ❖ **Consistency & Comparability** - Aligning industry practices through shared standards, frameworks, and methodologies.
- ❖ **Shared Learning** - Access to insights and experiences from diverse industry players tackling similar sustainability challenges.
- ❖ **Focused Information & Resources** - Gain access to expert-led insights on decarbonisation, circular economy strategies, and regulatory developments.
- ❖ **Influence Policy** - Shape industry-wide discussions and regulatory frameworks with a collective voice.
- ❖ **Improved Communication** - Strengthening engagement across the supply chain through coordinated initiatives, events, and projects.
- ❖ **Trusted Expertise** - Learn from a dedicated not-for-profit initiative focused on commercial sustainability solutions.
- ❖ **Driving Change** - Collaborate with a committed community working on measurable sustainability initiatives.

## What you get as a subscriber

### Exclusive access to community learning events and networking opportunities

Subscribers gain entry to a program of industry learning and networking events, including:

- ❖ **Green Connect** - BEAMA's sustainability networking event, held twice a year.
- ❖ **Webinars** - Regular expert-led sessions covering critical Net Zero and circular economy topics.
- ❖ **Annual Net Zero Conference** - A comprehensive forum for industry leaders to discuss challenges and solutions.
- ❖ **Hybrid Events** - Engage in person or online, providing flexible access to industry insights.

### Participation in Focused Groups and Committees

Subscribers can contribute to working groups and committees addressing key Net Zero and circular economy challenges, including:

- ❖ **Task & Finish Group Projects** - Short-term collaborations aimed at delivering tangible results.
- ❖ **Technical Sustainability Committee (TeSC) Working Groups** - In-depth, technical collaborations on sustainability frameworks.
- ❖ **Sector-Specific Committees** - Industry-focused discussions tailored to subscriber needs.

### BEAMA 2050 Connected Hub Access

- ❖ Unlimited logins for direct employees of subscribing companies.
- ❖ A central repository of sustainability resources, insights, and regulatory updates.
- ❖ Tools, calculators and expert consultations to support businesses in their Net Zero and circularity goals.

Join the movement today and take the next step towards sustainable transformation.

**BEAMA 2050 Connected** is your gateway to achieving meaningful sustainability progress. Whether you're just starting your journey or refining your approach, this initiative provides the resources, connections, and support needed to help your business stay ahead in the Net Zero and circularity transition.
